New York N.Y.

Dear Friend:

I am enclosing you a copy of a letter I have just written as a result of your letter to me.

I know it is self explanatory. Maybe it would be a good idea for you to send a copy to Mr Zellar. He will know whether or not Mr Williams receives it, as it is being sent in his care.

There is no question all the teams want to play in Detroit. More money is made there on a Sunday than you make a week or month other spots.

I had a phone call from one of our team members this morning(The Cubans), He said there was to be a meeting called in New York Feb. 22nd. I am sure the schedule will be made up at that time. This is a very short time off. If we could not arrange a definite date at this time, it would be nice to know we had a contact, and might have an inside tract. It would be worth it to have you telephone Mr Zellar, and know he would not give any date until you talked to him. Would this be possible.

I will of course let you know what the answer is to my letter to Mr Williams (if any). In the meantime I will keep you informed of any thing that happens.

Very Truly Yours
